

CVOW-C MARINER UPDATE 2022 #2: 01-AUG-2022

Unexploded Ordnance (UXO) Survey Work Underway for 2022

Dominion Energy has initiated UXO Surveys within the export cable corridor (Areas A&B) and the Coastal Virginia Offshore Wind (CVOW) lease (Area C) and activities are expected to continue through 2022. The vessels being deployed and the areas to be surveyed are identified below. We remain committed to maintaining communications with fishing communities and other mariners in the area via these periodic updates, dock visits, informational speaking engagements and the additional information posted on the [CVOW Website](#). Mariners are also encouraged to contact Dominion Energy's Fisheries Liaisons with any specific questions about CVOW project activities in relation to fisheries.

Mariners transiting or fishing in the survey area are requested to give a wide berth to survey vessels which may be limited in their ability to maneuver and towing gear up to 1,000' behind the vessel. Mariners should operate in a manner that will not endanger themselves, the survey vessel or its equipment, a 0.5 NM clearance is requested.

Henry Hudson:

- Daylight only operations in Zone A beginning 20-AUG-2022
- Call Sign: WDG4894
- MMSI: 367541190
- IMO: -
- Flag: USA
- LOA: 45 ft
- Beam: 15 ft

Minerva Uno:

- 24/7 operations in Zone B & Zone C beginning 30-JUL-2022
- Call Sign: IZVM
- MMSI: 247080700
- IMO: 9262077
- Flag: Marshall Islands
- LOA: 155 ft
- Beam: 30 ft

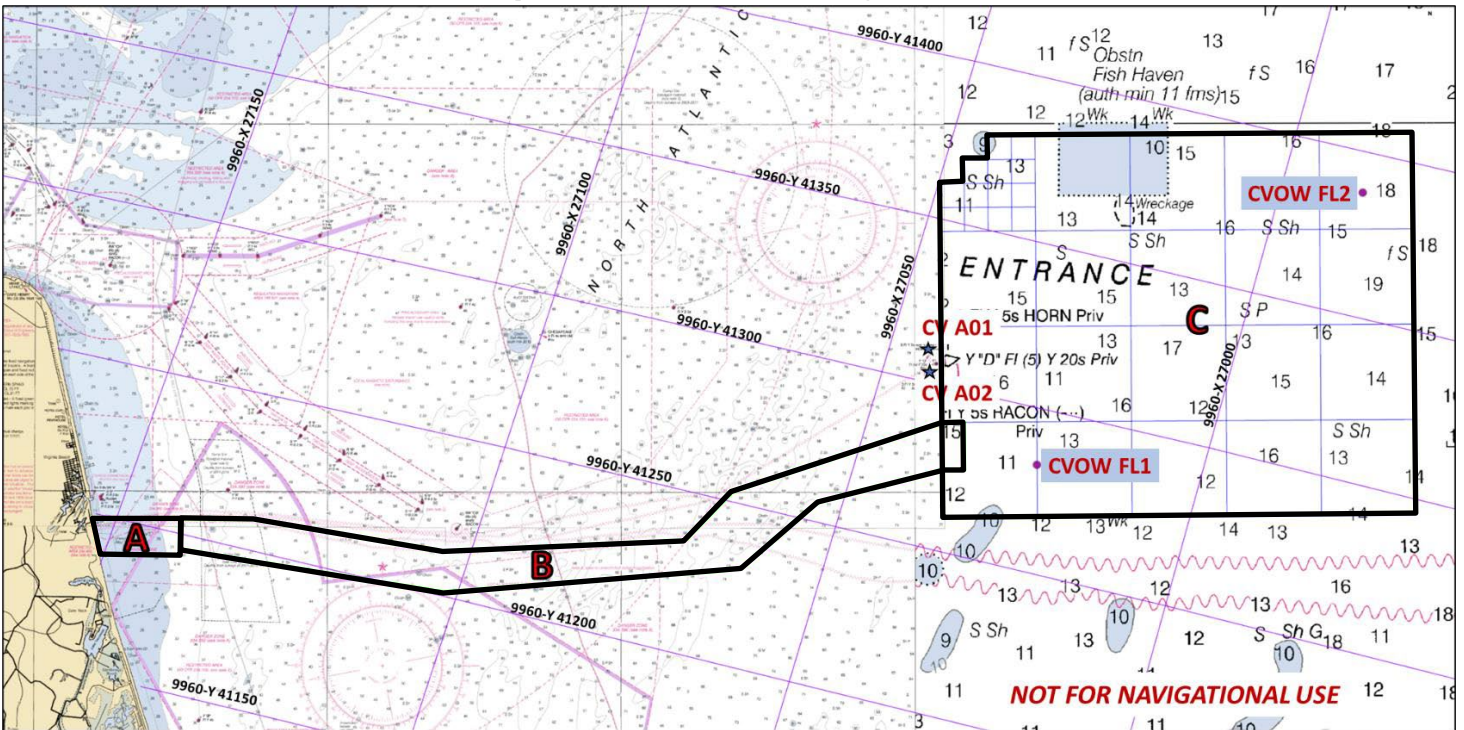

Shearwater:

- 24/7 operations in Zone B & Zone C beginning 05-AUG-2022
- Call Sign: WDF5838
- MMSI: 368528000
- IMO: 8993966
- Flag: USA
- LOA: 110 ft
- Beam: 39 ft

Chart reflects planned UXO Survey Areas (A, B & C)

Existing Offshore Turbines and Oceanographic Buoys

The two (2) CVOW Pilot Project (CVOW-P) turbines have been operational in federal waters since January 2021. The CVOW-P turbines are displayed on the updated NOAA Nautical Charts (Chart #s 12200 and 12221); the GPS positions of the turbines are given below. Fishermen are allowed to fish close to the turbines but coming into contact with them is prohibited. Mariners are also advised to be mindful of maintenance vessels that may need to access the turbines, we request that you make way for them so that they can safely access their work site.

There are two (2) oceanographic buoys deployed within the CVOW lease area. Near real-time oceanographic conditions from these buoys can be accessed on the buoy vendor's website: <http://rt.eolosconnect.com/>.

Item	Latitude (DD MM.mmm)	Longitude (DD MM.mmm)
Pilot Turbine CV-A01	36° 53.778' N	75° 29.498' W
Pilot Turbine CV-A02	36° 53.210' N	75° 29.495' W
Meteorological Buoy CVOW-FL1	36° 50.737' N	75° 25.845' W
Meteorological Buoy CVOW-FL2	36° 58.122' N	75° 14.695' W

Please consult the [USCG 5th District Local Notice to Mariners](#) for additional information on offshore activity and, as always, please adhere to the USCG Rules of the Road for mariners: <https://www.dco.uscg.mil/NavRules/>.
